EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Cornman on May 2, 2005.

The application has been amended as follows:

In claim 1, line 11, --extending within said core member-- has been inserted after "size".
In claim 5, line 10, --extending within said core member-- has been inserted after "size".

2. The following is an examiner's statement of reasons for allowance: The claims are allowed because in the examiner's opinion, the prior art fails to teach or fairly suggest a filter having the features recited in elements (a)-(d) in combination with integral gasket means capable of engaging fitting of more than one size extending within the core member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the instant drawings contain lines, numbers, and not uniformly thick and well-defined. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
